## Tax

### How do I search the Tax records?

1. Click the **"Tax"** tab, then select any of the available Tax searches.
2. Tax search is very similar to listing search. When searching by an Owner's name, most counties list last name first. Use the asterisk \* (wild card search) to account for name variances that might be in the tax record. For example, if the name is Timothy Jones, enter jones\*tim\*. The first asterisk will ensure you find the record regardless if the name is entered as "Tim," Timothy," "Timothy R.," etc. The second asterisk accounts for the possibility of a suffix such as "Sr.," "II," etc. Use similar logic when entering the street name.

### How do I create and print mailing labels?

1. Conduct a Tax search to find the records for which you want to create labels. (**Mo counties only**)
2. On the search results page, click the **"Check all XXX"** link
3. Click the **"Report"** button.
4. Click the Mailing label option and click **"Generate"**.
5. Your formatted labels will open in a new window. Select File>Print from the Web browser menu to print to your label sheets.
